

Main calendar table showing irrigation (shallow water, intermittent irrigation, mid-drying, etc.) and management (weeding, fertilizing, etc.) for four rice varieties (夢つくし, 元気つくし, ヒノヒカリ, ヒヨクモチ) across different terrain types (山ろく・中山間地, 平地) from May to October.

収穫適期 (黄褐色率70~80%)
収穫早限 黄褐色率70% 初水分28%
収穫晩限 黄褐色率80% 初水分24%
・適期収穫に努めましょう

注) 平地地は標高50m以下、山ろく地は50~100m、中山間地は100~300mの地帯である。

主な雑草及び病害虫

Table for '○箱施薬①' (Box application of pesticides) listing types like '防人箱粒剤' and 'フルスロトル箱粒剤' with usage instructions.

Table for '○補正防除' (Correction control) listing pesticides like 'ゴウケツモンスター' and 'リンパー' with usage details.

Table for '○除草剤使用基準②' (Weedicide usage standards) listing types like '粒剤' and 'フロアブル' with usage instructions.

Table for '○補正除草剤' (Correction weedicides) listing products like 'クリンチャー' and 'ワイドショット' with usage details.

Table for '○穂いもち病防除③' (Panicle blast control) listing pesticides like 'ノンプラス' and 'ダブルカット' with usage instructions.

Table for '○施肥基準' (Fertilization standards) showing fertilizer names and components (N, P, K) for different rice varieties.

Table for '○ウンカ・カメムシ防除④' (Planthopper and stink bug control) listing pesticides like 'エクシード' and 'スタークル' with usage instructions.

Table for '○施肥基準 (基肥一回全量施肥)' (Fertilization standards for base fertilizer) showing fertilizer names and components for different rice varieties.

Table for '○スクミリンゴガイ (ジャンボタニシ) 対策' (Succinea and giant pond snail control) listing the 'スクミノン' pesticide.
